
Course Requirements, Examinations and Grading:
There will be fifteen quizzes given during the semester. These quizzes will occur on the dates specified below. Each quiz will cover material covered during the previous two lectures. The best twelve of fifteen quiz grades will be used to calculate the student’s final class average. If a student is unhappy with his/her final quiz average then a comprehensive final exam will be offered during the final exam week. If a student chooses to sit for the comprehensive final, the grade earned on this final will account for 100% of the final grade i.e., the quiz average must be forfeited. Student(s) opting to take the final exam must contact Professor Belton to schedule an exam time during final exam week. Student(s) can opt to replace one quiz grade by completing all Myeconlab homework assignments.
